The Alumni Interaction on Career Opportunities in Mathematical sciences, organized by the Mathematics and Statistics Department, took place on March 21, 2024. The session aimed to provide current students with insights into various career paths available to mathematics and statistics graduates, facilitated by esteemed alumni. She gave information to the students about applications of mathematical sciences in the field of medical science, illustrating how mathematical modeling, statistical analysis, computational techniques, and optimization methodologies are indispensable tools in advancing healthcare research, diagnosis, and

treatment. The insights gleaned from the lecture are poised to catalyze further interdisciplinary collaboration between mathematicians and medical researchers, driving innovation and progress in healthcare.
