Report on Arduino Based Project Exhibition

Organized by: Department of Computer Science, Hutatma Rajguru Mahavidyalaya, Rajgurunagar.

Coordinator: Prof. A.P. Kulkarni

Chief Guest: Principal Dr. S.S. Pingle

Date of the Program: 18/04/2024 (Thursday)

Venue: Department of Computer Science

Target Group: S.Y.Bsc (Computer Science)

No of Participants: 56 Students

The Department of Computer Science at Hutatma Rajguru Mahavidyalaya, Rajgurunagar, organized an Arduino-Based Project Exhibition for the students of SYBSc (Computer Science). The exhibition served as a platform for students to apply theoretical knowledge, develop innovative solutions, and showcase their skills in electronics and programming through Arduino-based projects.

A variety of innovative projects were displayed, showcasing the creativity and technical expertise of the students. Projects ranged from automation systems, smart home solutions, and robotics to health monitoring devices. Students demonstrated their projects to faculty members, peers, and visitors, explaining the working principles, components used, and the coding behind their innovations.

Principal Dr. S.S. Pingle graced the event, observed the projects keenly, and interacted with the students. He provided insightful feedback and guidance, emphasizing the importance of practical applications in learning and encouraging students to pursue further research and development. His words of encouragement were a source of motivation for all participants.

Prof. A.P. Kulkarni coordinated the entire event, from planning and organizing to execution. He provided technical guidance to the students throughout the project development process and ensured the exhibition ran smoothly.

The exhibition successfully demonstrated the practical skills acquired by the students. It provided a platform for students to showcase their talents, receive constructive feedback, and gain confidence in project development. The event fostered a culture of innovation and hands-on learning within the department
