Respected Ma'am,

As per New Education Policy, our postgraduate syllabus includes four credits for internships or an on-the-job training program in the second semester. Our student, Miss. Namrata Macchindra Pacharne is interested in doing the internship in your institute. The duration of this internship, or on-the-job training, is 120 hours. If you are given the chance to do an internship with our student, then she will learn the advanced techniques and instrumentation that are available in your institute. This will definitely be helpful in their future. So we request you to admit our students as interns at your institute.
