In an effort to foster a deeper understanding and appreciation of life sciences among school students, the Department of Zoology, Hutatma Rajguru Mahavidyalaya, Rajgurunagar organized a lecture on key biological concepts for 10<sup>th</sup> standard students dated on 01/01/2025 and 22/01/2025 at 3:00 pm to 5:00 pm. Total 30 students of standard 10<sup>th</sup> of Kai Dnyaneshwar Ganpatarao Vidyalaya, Takalkarwadi, were present for these lectures. This outreach initiative aimed to bridge the gap between school-level biology and advanced concepts in the field, while also inspiring students to consider further studies in biology and zoology.

Prof. D. R. Borhade covered a range of topics in these two lectures. She briefly explains the variety of topics such as genetics, human physiology, ecosystems, animal classification and biodiversity. The session was designed to be interactive and engaging, allowing students to actively participate in discussions and ask questions to clarify their understanding. During this

lectures Three T. Y. B. Sc. Students also present for these lectures, they also interact with the students and share their experience with students.

This activity aligns with the department's ongoing efforts to extend knowledge beyond the classroom, promote science education, and encourage students to explore the exciting world of life science. By connecting with younger students, the department also aims to cultivate curiosity about the natural world and its intricate systems, which are crucial to the study of zoology and other biological sciences.

The lecture successfully achieved its goals of enhancing students' understanding of biology and sparking interest in pursuing the subject further. The session was engaging and well-received, and it helped promote the importance of life sciences.
